COURSE DESCRIPTION PRIVACY AND SECURITY MINIMUZIG THE THREAT

This class will outline cellular platform security issues in addition to online personal security risks. Learning proper security settings and minimizing your activity will provide guidance to assist individuals facing threatening situations, helping them to investigate and evaluate threatening behavior and develop strategies to reduce risk. Additionally, the training will illustrate step-by-step in-depth researching techniques utilizing online and open-source databases located on the web that will uncover actionable intelligence such as your addresses, phone numbers, family associations, physical movement, employment and social-networking profiles. By not understanding privacy settings and actions of those that rotate around you, personal identifiable information can be located easily.
